

HP Sprocket Prints

Set up

Step 1: Download the HP Sprocket app to the patron device.

Step 2: Turn on Sprocket printer by pressing and holding the Power button located on the side of the printer until the LED indicator turns white.

Step 3: Connect the informatics iPad to the printer via Bluetooth (it should connect automatically).

Step 4: Connect the patron device to the print queue.

Step 5: Print the desired photo(s).

Connecting the Printer to the iPad

Step 1: Open settings on the iPad.

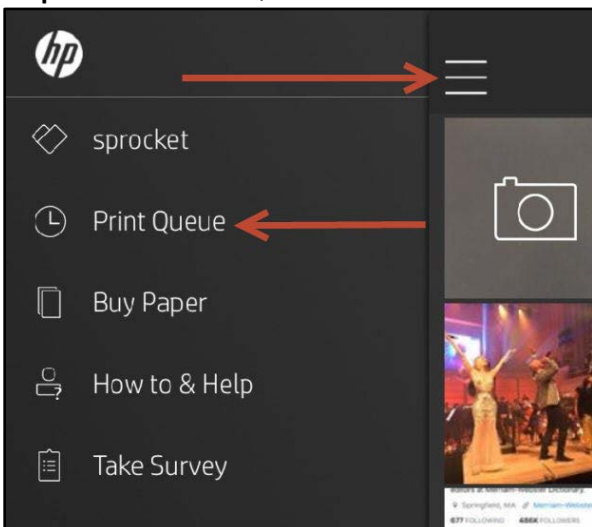

Step 2: Select Bluetooth.

Step 3: Select HP Sprocket.

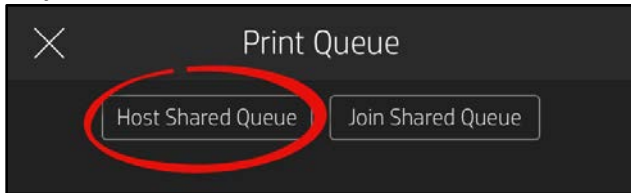

Connecting the patron device to the print queue

Step 1: Open the Sprocket app on the iPad.

Step 2: Select 'Print Queue' in the main menu.

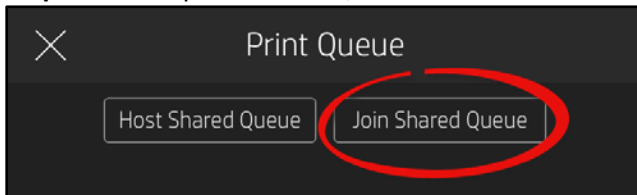

Step 3: Select 'Host Shared Queue'

Step 4: Enable Bluetooth on the patron device

Step 5: On the patron device, select 'Print Queue' in the main menu

Step 6: On the patron device, select 'Join Shared Queue'

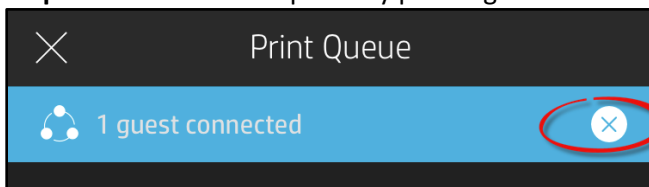

Printing

Step 1: Select the desired picture on the patron device. Complete any editing by selecting 'edit' in the top right corner.

Step 2: Press the printer icon located in the middle of the bottom icons.

Step 3: On the iPad, click the "Print" button in the top right corner of the screen.

Step 4: End the shared queue by pressing the white 'X' on the iPad after the print has completed.

Step 4: Press and hold the Power button until the white LED indicator goes dark to turn off the printer.

Note: The borders of the picture will be cut off approximately 2 mm.

The sprocket will shut off automatically after 5 minutes if nothing is printed.

Make sure the sprocket is charged; if the light on the front of the sprocket is green when plugged in, it is fully charged.

When a print error occurs, the light will flash red. Wait until it is white again to send a print job again.

The patron should be charged for prints before printing any pictures.
