

Online Button Design Studio

Navigation

Step 1: Type <http://www.buttonsonlinestudio.com/user/> in the address bar of any web browser.

Step 2: Erase any words found in the text boxes and login to the Button Maker Design Studio using the credentials found in the following link:

https://my.olivet.edu/depts/libraryresources/Resources/Button%20Maker/button_design_studio_credentials.pdf

Note: If the login screen does not show a username and password box (located on the top right of the page), click on the flash plugin to install flash.

Step 3: Click the Login button.

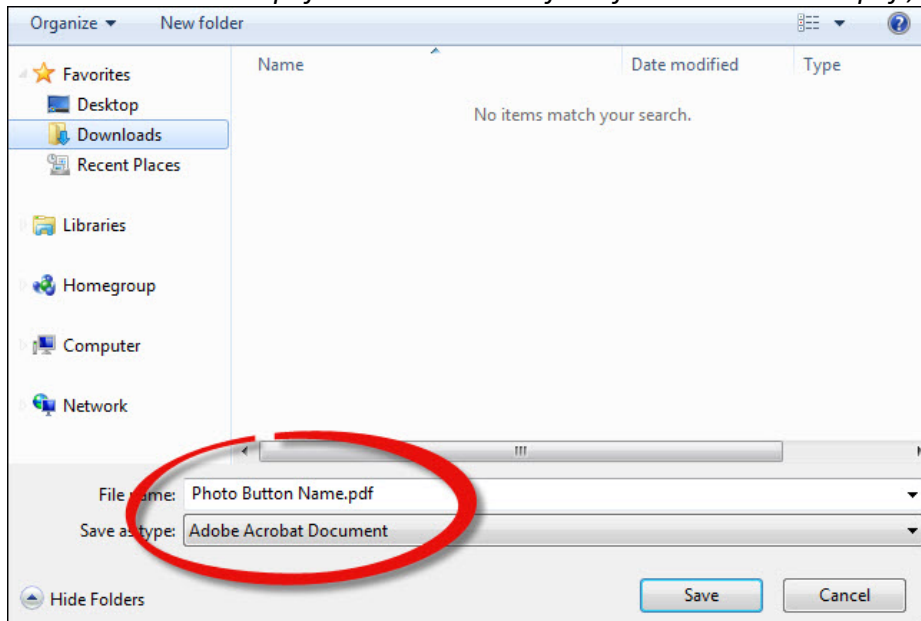

Step 4: Create a button from the following button options: Curved Text, Photo button, CD template, Template background, Square button, and Square photo button.

Note: For help and tips on designing a button, refer to the following tutorial:

<https://library.olivet.edu/bin/DCOD/redirect.php?id=1730&urlencode=https://www.youtube.com/watch?v=P N5vMxer7TE>

Step 4: After finishing a button design, save the pdf to a thumb drive or any desired location.

Note: Be sure it has .pdf as an extension. If the file does not have .pdf, rename the file with the .pdf extension.

Note: For more information on how to create a button using the Benner Library button makers, refer to the following tutorial:

https://library.olivet.edu/services/other_services/button_making/docs/button_making_tutorial.pdf
